

Linking Reading Lists Online to QMPlus with the Reading Lists Online Plug In

What is the Reading List Plug in?

QMPlus offers a plug in application to link QMPlus modules directly to your Reading Lists Online.

Reading lists online

With the Reading Lists Online plug in, you can link to a whole list or link week by week.

- Log in to Reading Lists Online at <https://qmul.rl.talis.com> Reading Lists Online needs to be open to create a link to QMPlus.
- Log into QMPlus in a separate browser tab.
- In QM Plus, select the module you wish to work with.
- Turn on editing (top right).
- Scroll down to the week you wish to link your reading list to.
- Click on Add an activity or resource.
- Select the Reading Lists Online plug in from the Resources on the right hand side and click on Add.
- A new window will open up. If it does not, check that you have allowed pop-ups for QMPlus.
- In Resource list name, enter the name of the Talis reading list you wish to link to.
- Scroll down and select the resources you wish to add from the list displayed.
- In Appearance, select Inline on the course page to display your reading lists in QMPlus.
- Click on Save and display to return to your QMPlus page and you will see the links you have selected appear.
